## Security Safe Owner's Manual

X031ML, X041ML, X055ML, X075ML, X125ML

## For Key Lock Safes

Your Master Lock product is equipped with a high security key lock. Two (2) keys are provided.

## For Digital Combination Safes

### Opening Your Safe for the First Time (Using the Override Key)

- 1 Remove the cover located between the knob and keypad.
- 2 Insert the override key provided and turn counterclockwise.
- 3 Turn the knob clockwise to open the door.
- 4 Turn key back clockwise to remove the key and replace the cover on the door.

**Note:** In an emergency, situation the safe can be opened using your override key. **DO NOT store your override key inside the safe.**

### Installing the Batteries

- 1 With the door open, remove the battery compartment cover located on the inside of the door by sliding the cover in the direction of the arrow.
- 2 Install four (4) AA size alkaline batteries.

**Note:** Follow the polarity (+/-) markings in the battery compartment to ensure proper installation.

- 3 Slide the battery cover back into place.

**Note:** Do not use rechargeable batteries or any other type of non-alkaline battery. Do not mix old and new batteries. Do not mix alkaline and other battery types.

## Using Your Security Safe

**IMPORTANT: All security safe models initially work using the factory code 1-7-5-0-0-#.** It is highly recommended and important to the security of your valuables that you re-program the safe with a new user code. Once reprogrammed the factory code can no longer be used to open your safe.

### Programming Your New User Code

- 1 Open the safe's door and remove the battery compartment cover.
- 2 Locate the button inside the battery compartment and press. The yellow LED light will go on.
- 3 Enter a new user code (between 2-8 digits) followed by the "#" key. The yellow LED light will go off to indicate the new code has been accepted and stored.
- 4 Replace the battery compartment cover.

**Note:** Always test a new code before storing any valuables inside the safe.

### Unlocking Your Safe

- 1 Enter your factory code or user code followed by #.
- 2 The green LED light will go and remain on for 5 seconds.
- 3 Within 5 seconds, turn the knob clockwise and pull open the door.

### Locking Your Safe

- 1 With the bolts retracted into the door, firmly close the door of the safe.
- 2 Turn the knob in the counter-clockwise direction to secure your safe.
